Biographic Sketch of
DR. GERHARD DITTMAR
Board of Management Member
Bayer AG
Leverkusen, West Germany

On the Board of Management of Bayer AG, Leverkusen, West Germany, Dr. Gerhard Dittmar is responsible for the North American region and Bayer's Organic Chemicals and Dyestuff Divisions.

Born in 1923 in Luetzelwig near Kassel, Germany, Dr. Dittmar

studied at the University of Gies-sen from 1942 to 1945. He completed his studies at the Chemical Institute of Phillips University, earning his Ph.D. degree in 1949.

He joined the Research Department of Farbenfabriken Bayer AG in 1950, and during the next 13 years had about 50 patents registered in his name.

In 1959 Dr. Dittmar was transferred to the company's Production Department to supervise the manufacturing of dyes which he had invented. From 1962 to 1968, he held a number of management positions in which he was responsible for construction and operation of new chemical production facilities.

His first assignment in the United States was in 1968, when he spent 4½ months with the then Verona Corporation, and was responsible for that firm's rapid expansion into the U.S. dyestuffs market.

Today he serves on the Boards of Directors of Mobay Chemical Corporation and Cutter Laboratories, Inc.
