

Brian Burkhart

Brian is Vice President of Fine Chemicals for Milliken & Company, a role he has held since 2018. He has served in a series of other roles within Milliken since 2000, including researcher, R&D leadership, product leadership, and commercial director. The Fine Chemical Products business produces, markets, and sells customized products for silicones and silanes, semiconductor precursors for CVD/ALD, specialty alkoxylates, API precursors, metal carboxylates, PVDC emulsions, and many other products.

Brian has served on the SOCMA Board of Governors since 2021. He also has served on the Board of Directors for the SC Governor's School for Science & Mathematics Foundation (2018 – 2024). He lives in South Carolina with his wife Julie. They have two grown children, a son Danny and daughter Rachel.
