Enhancing Your Life Every Day

Westlake Chemical Salutes Pittsburgh Chemical Day 2018

With 27 plants in the United States and six in Canada, Westlake Chemical is an international manufacturer and supplier of petrochemicals, polymers and building products that enhance the daily lives of people around the world. Whether it's the chlorine that keeps our pools safe, the pipes that are essential to ensuring clean water or the plastic wrap that keeps our meats and produce fresh, Westlake plays a vital role in supplying the building blocks – including chlorine and caustic soda, muriatic acid/HCl, PELS[®] Anhydrous Caustic Beads – for these products and many more.

Did you know Westlake ranks as the:

- #1 global producer of specialty polyvinyl chloride (PVC);
- 1st in North and South America low-density polyethylene capacity;
- 2nd largest PVC capacity in North and South America; and 3rd largest globally;
- 3rd largest chlor-alkali capacity in North America and globally.

Welcome to Pittsburgh Chemical Day 2018

On behalf of the Joint Chemical Group of Pittsburgh and our volunteer planning committee, we welcome you to the 51st annual Pittsburgh Chemical Day conference.

We are celebrating another year of coming together to network, learn, and grow in an ever-changing Chemical Industry. We have designed our program to highlight not only current issues, but also look towards the future markets, trends, and regulations that will impact us in the years to come.

Our goal is to utilize our venue, Heinz Field, to help showcase our incredible city and region, while providing you an optimal space to meet, generate new network connections, capitalize on industry relationships, and find new opportunities.

The conference could not happen without the help of our many volunteers, the companies they work for, and the companies that provided ads and sponsorship support.

Please take a moment to read the list of committee members and other contributors who have worked tirelessly to make this day a success. We hope you find Pittsburgh Chemical Day enjoyable, informative, and valuable.

Matt Evangelista
General Chair
2018 Pittsburgh Chemical Day

In Memory of

Paul Raymond Lagrotteria

(Passed away August 17, 2018)

Paul had been a chairperson, volunteer, or attendee at every PCD event since its inception 50 years ago. Through those decades many of his colleagues became lifelong friends even after his retirement as Purchasing Manager at Calgon Carbon. Paul is counted as the last remaining original participant of Pittsburgh Chemical Day, 51 years ago. During retirement, he remained active in the guidance of, the planning for, and the execution of every annual Pittsburgh Chemical Day. Paul valued the communality that PCD brings to the chemical industry and especially valued the friendships developed here.

We will miss Paul's input!

PCD Milestones:

- Attended the first Pittsburgh Chemical Day in 1967
- General Chairman of Pittsburgh Chemical Day 1975
- Board of Directors (Joint Chemical Group) 1976 – 2018
- Honored for his countless years of service 2013
- Attended his last Pittsburgh Chemical Day in 2017 (50 Years)
